

The strongest retractable grille on the market and the ultimate security solution. Eclipse X3 retractable grille have been successfully tested to British Government specifications and is an officially approved product. This is the only grille certified by the Loss Prevention Certification Board LPS 1175 Issue 6 SR3 and is specified on applications where security is paramount.

Applications

The Eclipse X3 is accepted for use by the UK Government and is suitable for the highest risk applications, including protecting hazardous materials. It is a 'Secured by Design' grille, approved by the Association of British Insurers. The LPCB's LPS 1175 Security Rating 3 makes this model completely unique in its level of protection.
